Tomato ^{Super} CAST™

FEATURES

- Comfortability: Smooth unrolling offers doctors can wrap it with less pressure and patient will have no pains during the applying procedure.
- Conformability and mouldability : Our own produced extreme soft fabric makes it easier to wrap and shape the contours of the human body.
- Durability for safety: Tomato Cast is strong to impact and durable on the edges.
- Tack-free and no layer separation
- Excellent X-ray translucency

APPLICATION INSTRUCTIONS

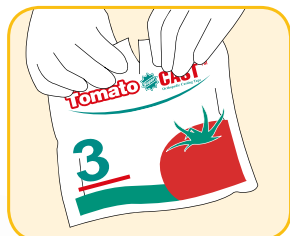

Please refer to our website (www.tomatomncindia.com) for instruction video and more details.

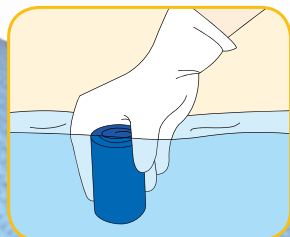

- 1** Slip the two layers of Tomato Safe Pad on the affected body part.

- 2** Gloves must be worn.

- 3** Open only one roll of Tomato Cast at a time.

- 4** Immerse the roll in the water in a temperature of 20~24 degrees for 3~5 seconds and squeeze 3~4 times in the water for the complete water penetration into the body of the roll.

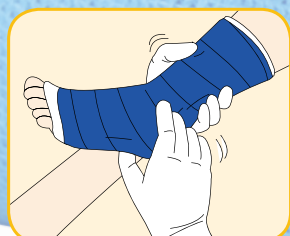

This process will help strengthen adhesion and make it easy to come off the roll.

* Do not put it in the water for too long.

- 5** Wrap spirally, taking care to avoid excessive tightness.

* Finish wrapping it up within 1 minute and 10 seconds after the pouch is open.

- 6** Smooth and rub the surface to achieve good contact between layers. In 3-5 minutes after immersion in the water, Tomato Cast is sufficiently cured for further molding.

PRODUCT INFORMATION

MODEL NO.	SIZE
TRC-001F/TRC-001P	1in x 2yds (2.5cm x 1.8m)
TRC-002F/TRC-002P	2in x 4yds (5.0cm x 3.6m)
TRC-003F/TRC-003P	3in x 4yds (7.5cm x 3.6m)
TRC-004F/TRC-004P	4in x 4yds (10.0cm x 3.6m)
TRC-005F/TRC-005P	5in x 4yds (12.5cm x 3.6m)
TRC-006F/TRC-006P	6in x 4yds (15.0cm x 3.6m)

COLOR INDEX

※ The color shown in the picture may be different from the actual color.

ORDERING CODE

TRC - 00XX - XX

COLOR INDEX

F: FIBERGLASS / P: POLYESTER

WIDTH

TRC: TOMATO RIGID CAST

TSC: TOMATO SOFT CAST

* e.g. - TRC - 003F - WH: tomato rigid cast, 3 inch, fiberglass, white

Removal: Tomato Cast can be removed with a traditional cast saw. Care should be taken to avoid injury to the patient when a small amount of underpadding has been used.

INTENTION TO USE

Tomato Cast has been designed for immobilization of fractures, sprains and strains, ect.

PRECAUTION

1. Each roll should be gently squeezed prior to opening to check suitability for application. The unopened roll should be soft and flexible, Do not use the roll that feels hard.
2. The polyurethane resin could adhere firmly to unprotected skin, hair and clothing, which may cause a mild irritation. Thus, always wear protective gloves to apply and use alcohol or acetone before to remove the polymer.
3. An uncomfortable increase of heat can be caused during hardening by excessive layering of tape or immersing in water at temperature above 27°C.
4. All application should be followed instructions and directions of a doctor or qualified medical professional.
5. Products should be stored out of reach of children.

Tomato SOFT CAST™

FEATURES

- Easy to be cut off by bandage scissors
- Enough fixation for support
- Skin tight applications without padding
- Shoes can be worn with the cast on
- Suitable for a child in cast removal

INTENTION TO USE

Tomato Soft Cast is intended for secondary casting and a comprehensive wrap to control swelling. Tomato Soft Cast, more flexible casting material is typically used for functional immobilizations that can tolerate some movement (ex. minor broken bones, or more casual strains, sprains, and **ligament damage**).

PRODUCT CHARACTERISTICS

Tomato Soft Cast consists of a knitted polyester fabric impregnated with a polyurethane resin. Exposure to moisture or water initiates a chemical reaction which causes the roll to set. The finished wrap will retain its shape while remaining elastic to the touch

PRODUCT INFORMATION

MODEL NO.	DESCRIPTION	SIZE
TSC-002P	Tomato Soft Polyester Cast	2in × 4yds (5cm × 3.6m)
TSC-003P	Tomato Soft Polyester Cast	3in × 4yds (7.5cm × 3.6m)
TSC-004P	Tomato Soft Polyester Cast	4in × 4yds (10cm × 3.6m)
TSC-005P	Tomato Soft Polyester Cast	5in × 4yds (12.5cm × 3.6m)

Tomato STOCKINET™

FEATURES

- Soft & moderate elasticity offers more comfortability to patient
- It minimizes skin trouble because it is made of cotton

INTENTION TO USE

Tomato STOCKINET is intended as a soft sores-preventing inter-layer under solid cast materials.

MODEL NO.	SIZE
TMS-002	100% cotton stockinette 2"×10m
TMS-003	100% cotton stockinette 3"×10m
TMS-004	100% cotton stockinette 4"×10m
TMS-006	100% cotton stockinette 6"×10m
TMS-008	100% cotton stockinette 8"×10m
TMS-010	100% cotton stockinette 10"×10m

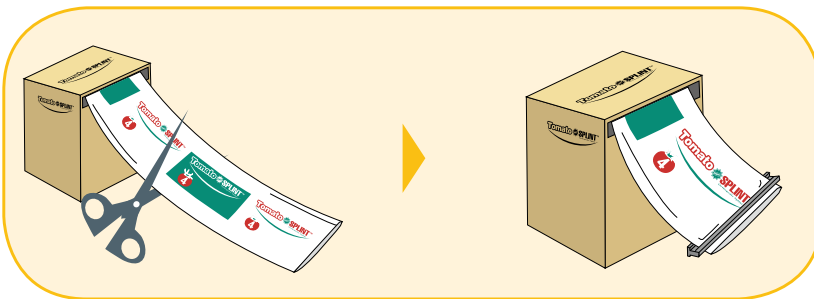

Tomato ^{Super} SPLINT™

FEATURES

- Comfortability & hygiene : Instead of soaking in the water, as water spray is possible on the mesh part, it gives more pleasant feeling to the patient because there is no water on patient side.
- Conformability & mouldability: Tomato Splint is very easy to shape the contours of human body.

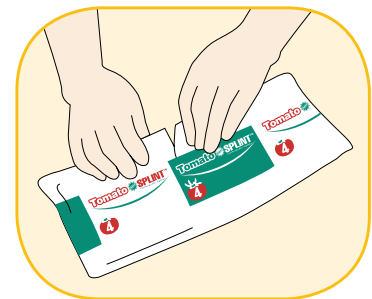

APPLICATION INSTRUCTIONS

Please refer to our website (www.tomatomncindia.com) for instruction video and more details.

1A Take out Tomato Splint covered with long sealed foil pouch from the box, measure the length to apply and cut off with a bandage scissors.

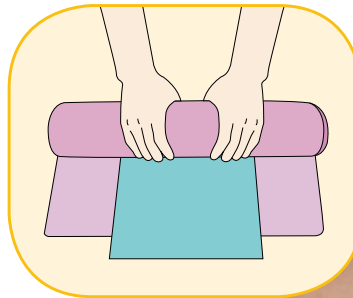

1A-1 Seal up immediately with a clip (sealing bar) provided inside each box to prevent air or moisture from coming inside the package.

2 Choose the desired size for the affected body part. Generally no gloves are necessary.

3 Except using traditional methods, you can spray room temperature water on the out side part (Green mesh part) of Tomato Splint.

4 Get ride of excessive water on the splint after rolling up with the dry towel. Depending on times, it is not needed to get ride of water totally. In case of need, just tap on the splint surface with dry towel.

5 Wrap Tomato Splint with a roll of elastic bandage to secure and mold it freely.

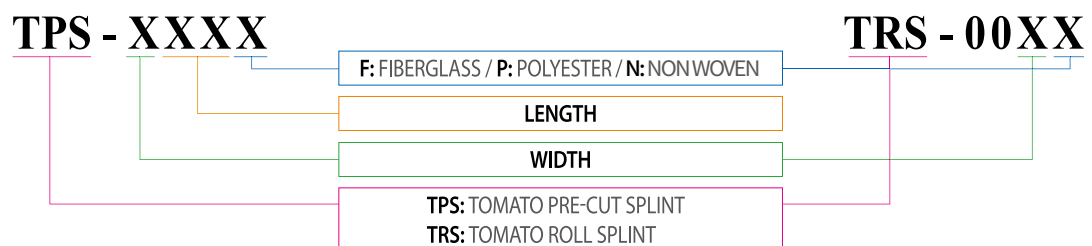

INTENTION TO USE

Tomato Splint has been designed for use in emergency treatment for fractures, sprains and strains. Common practices are, after fractures, swelling would cause a cast to function improperly. Tomato Splint can be used until swelling has been decreased and ready to apply complete cast.
